

Part Number #7010
Protective Case for palmRAD 907

P/N 7010

Ideal for military applications, this is the ultimate case for protection from severe weather, drops, and more. Made from a nearly indestructible material, it has been designed to house your palmRAD in a dustproof, air proof, and watertight case while still providing you with access to your Inspector+ for data, regardless of the conditions (Gamma detection only).

Details:

ANSI Standard: (42.33) for homeland security
Crushproof, Waterproof, Dustproof & Airtight
Adjustable Velcro hand strap - easy to use with gloves

Dimensions:

(inches)

L 8.5 - W 1.37 min (W 5.25 max) - D 2.4
(millimeters)

L 216 - W 111 min (W 133 max) - D 61

Easily to use the palmRAD through recessed,
clear plastic screen

The optional protective case has been designed to protect your palmRAD from dust, water, dirt and accidental drops while still providing visual access to your palmRAD data and current settings through transparent windows at front, top and bottom.
